

## GenSearch: Stepping up to the challenge for Endometriosis.

Paris, France - Thursday, 30 August 2018 - The early morning runs, aching limbs and blisters won't stop the GenSearch team who are determined to run and support the ENDOmIND 10km run in Paris to raise awareness for Endometriosis as well as helping to fund further research into this debilitating illness to which there is no known cure.

Sébastien Stoitzner from GenSearch said: *"We are thrilled to be running and sponsoring the 10km ENDOrun organised by the French charity Endomind in Paris on 18<sup>th</sup> November 2018. Members of my team have suffered from this illness for years so this is the perfect cause for us. And knowing that the money we are raising for a cause that affects so many women around the world. 1 in 10 women get affected by endometriosis and there is yet to be a cure. This means around 176 million women in the world have endometriosis."*

If you enjoy running you are more than welcome to join us and if not please come and cheer on the GenSearch team. You also have the possibility to contribute to the cause by donating money here: <http://www.alvarum.com/gensearch>

From GenSearch - Alix Aubert, Claire Biseaux, Julien Nougarou and Sébastien Stoitzner will be running with the rest of team there to cheer them on.

### About GenSearch

GenSearch is an international retained Executive Search and HR services consultancy dedicated to the Life Sciences. Our focus covers the Medical Device, Diagnostics, Pharmaceutical and Biotechnology industries. We thrive when working with companies who are in different stages of their business life-cycle from start-up companies to large multinational healthcare companies. We work closely with all our clients to add value and performance to their business. Our goal is to also help executives build a successful career in line with their aspirations and the market reality using our extensive sector knowledge. ### About the Endorun

On Sunday, 18 November 2018, hundreds of runners including the French singer Imany, will take part in the first race dedicated to endometriosis, a little known disease that affects more than 3 million French and 180 million women in the world. [ENDOrun](#)

The [ENDOmIND](#) association has been created to help, support and give value to all initiatives that make endometriosis more visible and improve its recognition as a real social and public health issue.
